## Draft Minutes of Meeting of 32<sup>nd</sup> Academic Council

Date: 28<sup>th</sup> July 2026

Time: 11.30 a.m.

**Government College of Engineering, Chhatrapati Sambhajanagar**

**Chairman:** Dr. S. S. Damhare, Principal, Government College of Engineering,  
Chhatrapati Sambhajanagar

**Member Secretary:** Dr. S. A. Sonawane, Registrar (Academics) **Mode of Meeting:** Hybrid

**Sub:** 32<sup>nd</sup> meeting of Academic Council, dated 28/07/2026

The meeting of the academic council was scheduled on 28/07/2026. It was held in hybrid mode, offline at Electronics Engineering department seminar hall and online on Google Meet Video Meet link: <https://meet.google.com/byr-xadn-jxs> at 11.30 a.m. Hon. Chairman, members and invitees of Academic Council as below attended the meeting.

| Sr. | Name                                                                                                   | Designation in AC                        |
|-----|--------------------------------------------------------------------------------------------------------|------------------------------------------|
| 1.  | Dr. S. S. Damhare, Principal                                                                           | Chairman                                 |
| 2.  | Dr. S. R. Hirekhan, Head Electronics & Telecommunication                                               | Member                                   |
| 3.  | Dr. S. S. Koranne, Head Civil Engineering                                                              | Member                                   |
| 4.  | Dr. Smita Chavan, Head Information Technology                                                          | Member                                   |
| 5.  | Prof. S. D. Ahirrao, Head Mathematics                                                                  | Member                                   |
| 6.  | Dr. V. R. Ratnaparkhi, Dean Research & Development                                                     | Member                                   |
| 7.  | Dr. N. R. Bhasme, Dean Industry Institute Interaction                                                  | Member                                   |
| 8.  | A. K. Gulve (Representative of teaching staff),                                                        | Member                                   |
| 9.  | Prof. Abhijit Kousal (Representative of teaching staff)                                                | Member                                   |
| 10. | Prof. Atul Chaudhari (Representative of teaching staff)                                                | Member                                   |
| 11. | Dr. R. K. Shrivastava, Dean Quality Assurance                                                          |                                          |
| 12. | Dr. Y. V. Joshi, Professor, Department of Electronics and Telecommunication Engineering, SGGS Nanded   | Member nominated by Board of Management  |
| 13. | Prof. Narendra S. Chaudhari VC Assam Technological University                                          | Member (University Nominee)              |
| 14. | Dr. Sachin Deshmukh, Professor Dr. Babasaheb Ambedkar Marathwada University, Chhatrapati Sambhajanagar | Member (University Nominee)              |
| 15. |                                                                                                        |                                          |
| 16. | Dr. V. Jothiprakash, Professor, Department of Civil Engineering, IIT Bombay                            | Members nominated by Board of Management |
| 17. | Dr. Kishor Wagh                                                                                        | Invitee                                  |
| 18. | Dr. G. K. Patil, Head Applied Mechanics,                                                               | Member                                   |
| 19. | Dr. S. V. Shinde, Head Physics                                                                         | Member                                   |
| 20. | Dr. Vikul Pawar Head Computer Science & Engineering                                                    | Member                                   |
| 21. | Dr. S. S. Agrawal                                                                                      | Invitee                                  |
| 22. | Dr. B. N. Chaudhari Director SPIT Mumbai                                                               | Invitee                                  |
| 23. | Dr. A. R. Karwankar, Dean (Academics)                                                                  | Member                                   |
| 24. | Dr. S. A. Sonawane, Registrar Academics                                                                | Member Secretary                         |

Leave of absence was granted to the members, Prof. S. P. Atipamulu, Dean Student Activities, Shri. Ajit Saundalgikar, Shri. Umesh Dashrathi and Dr. S.N. Sapli. Dr. S. R. Pardeshi, Controller of Examinations & Dr. Y. U. Sathe, Workshop Superintend remained absent without any information.

The Chairman, Dr. Sanjay Damhare, started the meeting by welcoming honorable members and invitees of Academic Council and declared the meeting open and he further directed Dr. S. A. Sonawane, Registrar (Academics) to conduct the proceeding as per agenda.

Following transactions were carried out, noted & approved by the Academic Council:

**Item 32.1: Confirmation of minutes of 31<sup>st</sup> Academic Council & action taken report** The minutes and action taken report were presented by the member secretary. Honorable Chairman and members of Academic Council confirmed and approved the minutes and action taken report of XXXI<sup>st</sup> Academic Council meeting.

### **Action Taken Report for Resolutions in 31st Academic Council Meeting**

| <b>Proposals from Dean (Academics)</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | <b>Resolutions in 31st Academic Council Meeting</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | <b>Action Taken</b>                                                                                          |

| <p><b>Item No. 31.2.1: Relative Grading for M.Tech/MCA</b></p> <p>It is proposed to implement Comprehensive Relative Grading for NEP batch, M.Tech, and MCA students in courses with an enrollment of more than 30 students. This system permits the adjustment of the minimum passing threshold within the range of 45% to 52%. This proposal was recommended during the Heads and Deans meeting on October 28, 2025, and is herein submitted to the 31st Academic Council for post facto approval. (Annexure 31.2.1)</p> | <p><b>Resolution 31.2.1:</b></p> <p>Approved. The Academic Council considered the proposal to implement Comprehensive Relative Grading for NEP batch, M.Tech, and MCA students in all courses with an enrollment of more than 30 students, allowing the minimum passing threshold to be adjusted within the range of 45% to 52%. Noting that this recommendation was deliberated and approved in the Heads and Deans Meeting held on October 28, 2025, the Academic Council hereby grants post facto approval for the implementation of the proposed Comprehensive Relative Grading system. Resolved that the Comprehensive Relative Grading scheme, as detailed in Annexure 31.2.1, be approved and implemented for NEP, M.Tech, and MCA programs for the students admitted from Academic year 2025-2026.</p> | <p>Implemented for NEP, M.Tech, and MCA programs for the students admitted from Academic year 2025-2026.</p> |
| <p><b>Item No. 31.2.2: Approval of Academic Schedule for even semester of next Academic year 2025-2026</b></p> <p>This academic schedule was finalized in Heads and Deans Meeting held on 19th November 2025 (Annexure 31.2.2)</p>                                                                                                                                                                                                                                                                                         | <p><b>Resolution 31.2.2:</b></p> <p>Approved. Start and end dates of academic sessions for SY onwards classes are 01-01-2026 and 08-05-2026 respectively. Start and end dates of academic sessions for FY classes are 15-01-2026 and 16-05-2026 respectively.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <p>Implemented Academic schedule was published on the institute website and all students groups</p>          |

| <p><b>Item No. 31.2.3: Suggested M.Tech. Program Components to be implemented from Academic year 2026</b></p> <p>Following a review of the M. Tech credit structures at premier institutes such as IITs and NITs, and incorporating feedback from E&amp;TC Board of Studies (BoS) member (VNIT), we propose revising the program components for our PG courses. It is noted that the full-time M. Tech program at NIT consists of 52 credits.</p>                                                                                                                                                                                                 | <p><b>Resolution 31.2.3:</b></p> <p>Approved. Revision of M.Tech Program Components Effective from Academic Year 2026. The Academic Council reviewed the proposal outlining the suggested revisions to the M.Tech program components, based on a comparative analysis of credit structures at premier national institutions, including IITs and NITs, and incorporating feedback from the E&amp;TC Board of Studies (BoS) member from VNIT. Consequently, it is suggested that we upgrade our current M.Tech credit distribution to enhance the program's quality and alignment with these standards (Annexure 31.2.3). Noting that the full-time M.Tech program at NITs generally consists of 52 credits, the Academic Council deliberated upon the proposed upgradation of the existing M.Tech credit distribution. Resolved that the revised M.Tech program components, as detailed in Annexure 31.2.3, be approved and implemented from the Academic Year 2026. Total number of credits for M.Tech Programs will be 62 and the credit distribution is as per Annexure 31.2.1.</p> | <p>Implemented. All the Program Coordinators were instructed to update PG Curriculum credits to 62 and follow the credit distribution as per annexure 31.1 . Total number of credits for M.Tech Programs will be 62</p>                                                                                                                                             |
| <p><b>Item No. 31.2.4: Approval for Formation of new Board of studies for Multidisciplinary minor courses</b></p> <p>Preamble: In accordance with Resolution No. AC/XXX/30.2.6 (dated 05/07/2025), a new Board of Studies (BoS) is hereby formulated to govern Multidisciplinary Minor courses, with authority over all Multidisciplinary Minor courses except Department-specific Program Minors, Humanities &amp; Social Sciences, Open Electives, and Human Value Courses. Primary functions: prepare and recommend structure/content of new multidisciplinary courses, suggest teaching methodologies and evaluation patterns, and review</p> | <p><b>Resolution 31.2.4:</b></p> <p>Approved formation of a New Board of Studies for Multidisciplinary Minor Courses, with jurisdiction over all multidisciplinary minor courses except Department-specific Program Minors, Humanities &amp; Social Sciences, Open Electives, and Human Value Courses. Further resolved that the Board's functions shall be to develop and recommend structure and syllabi for new multidisciplinary minor courses, suggest teaching methodologies and evaluation mechanisms, periodically review academic performance, and coordinate grading/DGMC formation with the Controller of Examination. Approved as detailed in Annexure</p>                                                                                                                                                                                                                                                                                                                                                                                                                | <p>New Board of Studies for Multidisciplinary Minor Courses, with jurisdiction over all multidisciplinary minor courses except Department-specific Program Minors, Humanities &amp; Social Sciences, Open Electives, and Human Value Courses formed. The inputs and suggestions given by Dean Admin via a letter dated 27<sup>th</sup> July 2026 were discussed</p> |

| <p><b>Item No. 31.2.5: Proposal for Remedial Examination for High-Failure Online Courses</b></p> <p>Data analysis of recent results indicates a failure rate exceeding 60% in select NPTEL/SWAYAM courses, disproportionately impacting the Passing Percentage of the batch. It is proposed to introduce an 'Immediate Remedial Examination', scheduled immediately after declaration of online course results and prior to the regular Re-Examination (REESE), with the question paper set internally by the Course Coordinator.</p> | <p><b>Resolution 31.2.5:</b></p> <p>Approved. Resolved that an Immediate Remedial Examination be instituted for students who fail to achieve minimum passing marks in designated high-failure online courses (threshold suggested at 40%), with timing immediately after declaration of results and before REESE, question paper set internally aligned with the online course syllabus, eligibility limited to students with non-passing grades, and objective to mitigate academic loss. Approved as presented in Annexure 31.2.5, applicable to courses with failure rate <math>\geq 40\%</math>, effective from even semester of academic year 2025-26.</p> | <p>Implemented Instructions were given to Controller of Examination for following this resolution from even semester of academic year 2025-26. Controller of Examination will give the data to department for further perusal.</p>                 |
| <p><b>Item No. 31.2.6: Approval for the Completion of Institutional Minor Courses by the Seventh Semester</b></p> <p>It is proposed to restructure the delivery and assessment of Institutional Minor Degree courses to ensure completion by the end of the Seventh Semester (VII Sem), to free up the Eighth Semester for internships/industry projects and reduce burden in the final semester.</p>                                                                                                                                 | <p><b>Resolution 31.2.6:</b></p> <p>Approved. Resolved that the delivery and assessment structure of Institutional Minor Degree courses be reorganized so that all components are completed by the end of the Seventh Semester, with effect from the forthcoming applicable academic cycle. Departments offering Minor programs shall undertake necessary curricular adjustments. Approved as presented in Annexure 31.2.6.</p>                                                                                                                                                                                                                                 | <p>Implemented All the Program Coordinators and ownership departments were instructed to update and monitor that all credits of minor will be completed at the end of 7<sup>th</sup> Semester for NEP UG Batches</p>                               |

| <p><b>Item 32.2.2: Approval of Academic Schedule for ODD semester of Academic year 2026- 2027</b></p> <p>This academic schedule was finalized in Heads and Deans Meeting and proposed for approval (<a href="#">Annexure 32.2.2</a>)</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | <p>Resolved that the Academic Council approves the Academic Schedule for the Odd Semester, Academic Year 2026-27, as placed at Annexure 32.2.2, for implementation with effect from 13th July 2026.</p>                                                                                                                                                                                                                                                                                     |
| <p><b>Item No. 32.2.3: Proposed Punitive Framework for Non-Compliance of Examination Duties by Engineering Faculty</b></p> <p>It has been observed that instances of non-compliance with assigned examination duty — including unauthorized absence, refusal or evasion of duty, unpunctual reporting, delayed submission of assessed answer books, and dereliction during invigilation — have a direct bearing on the smooth conduct of examinations, timely declaration of results, and the reputation of the Institute. In order to institutionalize a fair, transparent, and graded mechanism for addressing such lapses, this note is placed before the Academic Council for deliberation and approval. (<a href="#">Annexure 32.2.3</a>)</p> | <p>Resolved that the Academic Council approves the punitive framework for non-compliance of examination duties by faculty, as detailed in Annexure 32.2.3, for incorporation into the Institute's Examination Policy and communication to all teaching departments for strict compliance with effect from the Odd Semester, Academic Year 2026-27. CoE and Chairman Examination Committee are informed to monitor that Dr. BAM university Examination Guidelines shall not be violated.</p> |
| <p><b>Item 32.2.4: Institutionalization of an Academic Audit Committee with a Fixed Annual Cycle</b></p> <p>This proposes the constitution of a standing Academic Audit Committee (AAC), with a defined annual cycle of activity, to institutionalize internal academic quality review, strengthen outcome-based education (OBE) practices, and generate a documented trail of continuous improvement that also supports accreditation and autonomy renewal processes, placed before the Academic Council for deliberation and approval. (<a href="#">Annexure 32.2.4</a>)</p>                                                                                                                                                                     | <p>Academic council appreciated the proposal Resolved that the Academic Council approves the constitution of a standing Academic Audit Committee (AAC), with the composition, scope, and fixed annual cycle as detailed in Annexure 32.2.4, commencing from Academic Year 2026-27, and authorizes the Principal and Dean QA to issue the detailed operational circular, standard audit formats, and department-wise schedule for the first cycle.</p>                                       |
| <p><b>Item. No. 32.2.5: Guidance from Academic Council is solicited about credit mismatch for the course PPS</b></p> <p>For NEP batch starting from 2023 02 credit has been allotted to the Programming for Problem Solving Laboratory in MIS while in curriculum structure number of credits mentioned are 01 , Results of three batches of EXTC, CSE and IT from 2023 for first year were processed with</p>                                                                                                                                                                                                                                                                                                                                     | <p>Academic council suggested to monitor scrupulously and directed all Chairman BoS, FY Coordinator and Controller of Examination to work synchronously to avoid such mistakes and to take measures to avoid such errors in future.</p> <p>Academic Council also directed to Chairpersons of BoS of Computer Science and Engineering, Information</p>                                                                                                                                       |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                        |

| <p><b>Item No. 32.2.10: Equivalence of the PG program</b></p> <p>AICTE has permitted us to change the name of the program from M. Tech. (Electronics Engineering) to M. Tech. (Thinking Systems) from year 2026-27 onwards. The curriculum of M. Tech. Thinking Systems covers the Electronics Systems using Artificial Intelligence techniques. Sensors, Signal Processing, Automation, Aerial Systems, IoT, Embedded Systems, VLSI, Image &amp; Video Processing and Cyber Physical Systems are included in this syllabus. This is a proposal to consider / grant the equivalence of M. Tech. (Electronics Engineering) and M. Tech. (Thinking Systems) as most the subjects are related to electronics systems with the applications of AI techniques. The proposal is forwarded for approval from Academic Council.</p> <p><b>(Annexure 31.2.10 ETX5-Equivalence)</b></p> | <p>Resolved that the Academic Council approves the equivalence of M. Tech. (Thinking Systems) with M. Tech. (Electronics Engineering), as detailed in Annexure 32.2.10. The Chairman, BoS is directed to submit the complete syllabus to Dr. Babasaheb Ambedkar Marathwada University, Chhatrapati Sambhajnagar, for formal equivalence.</p> |
| <p><b>Item No. 32.2.11: Swapping the 7th and 8th semester</b></p> <p>Following students have applied for the swapping of 7th and 8th semesters.</p> <ol style="list-style-type: none"> <li>1. Hridhhi Deo</li> <li>2. Pradipta Kar and</li> <li>3. Yash Nannaware</li> </ol> <p>These students are opting for the semester long internship in the semester July to December 2026. During the next semester they will complete their academics. is finalized forwarded for approval from Academic Council. <b>(Annexure 31.2.11 ETX6-Semester Swapping)</b></p>                                                                                                                                                                                                                                                                                                                | <p>Resolved that the Academic Council approves the swapping of the 7th and 8th semesters for the students listed in Annexure 32.2.11 (Hridhhi Deo, Pradipta Kar, and Yash Nannaware), who are undertaking a semester-long internship from July to December 2026.</p>                                                                         |

| <p><b>Item No. 32.2.13: Final Year B. Tech (Electrical) as NEP compliant Curriculum structure and syllabus</b></p> <p>BoS Chairman briefed about the structure of NEP curriculum structure. Total 170 credits are required to award B. Tech. degree with compulsory one Minor. Of which fifty-two are for program core subjects and twenty credits are for program electives. Students have to take two program electives in fifth, sixth and seventh semester.</p> <p>1. The syllabus of Final Year B Tech U.G. program is prepared) and is forwarded for approval of the Academic Council.</p> <p>2. Internships may be offered in seventh or eighth semester to have better choice and flexibility as many institutions offering it in eighth semester may cause difficulty in getting internship. It will be adopted as per institute policy. (<b>Annexure 32.2.13</b>).</p> | <p>Resolved that the Academic Council approves the Final Year B.Tech. (Electrical Engineering) NEP-compliant curriculum structure and syllabus, and permits internships to be offered in the seventh or eighth semester as per Institute policy, as detailed in Annexure 32.2.13.</p> |
| <p><b>Item No. 32.2.14: Approval to MTech. (Electrical Power Systems) curriculum</b></p> <p>1. The syllabus of M. | <p>is proposed to shift the subject Research Methodology (ITELC4002) from the VIII Semester to the VII Semester.</p> <p>In the previous academic council, it was decided to offer this course on NPTEL which is now three credit course but approved equivalent to two credit course which is mentioned in structure of final year B Tech Syllabus</p> <p>2.Revision in Credit Structure for Project-II (ITELC4001) For the Batch admission year 2023-24 and pass out year 2026-27. As 01 additional credit has been allotted to the Programming for Problem Solving Laboratory, it is necessary to adjust the overall credit structure. Accordingly, it is proposed to revise the credits of Project-II (ITELC4001) in the VII Semester from 04 credits to 03 credits for batch admission year 2023-24 and pass out year 2026-27. Afterwards for the batch admission year 2024-25 and further batches, it is proposed to revise the credits of Project-II (ITELC4001) in the VII Semester from 03credits to 04 credits to fulfil the NEP credit requirement (<a href="#"><u>Annexure 32.2.18</u></a>)</p> | <p>(2) Revision of the Project-II (ITELC4001) credit structure — from 04 to 03 credits for the batch admitted in 2023-24 (pass-out year 2026-27), and from 03 to 04 credits for the batch admitted in 2024-25 onwards, to fulfil NEP credit requirements — as detailed in Annexure 32.2.18. The Council recommends that the batch be identified by admission year rather than passing-out year for this purpose.</p>           |
| <p><b>Proposals from Computer Science and Engineering Department:</b></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <p><b>Item No. 32.2.19: Updation in UG Curriculum</b></p> <p><b>1. Post-Facto Approval for NPTEL Certification Course in Research Methodology (CSRMC4001)</b></p> <p>It is proposed to accord post-facto approval for permitting students to complete the NPTEL Certification Course in Research Methodology (CSRMC4001) during the previous semester. The NPTEL course is of 12 weeks duration and is equivalent to the proposed curriculum course carrying 02 credits. Therefore, approval is sought for granting equivalence of the NPTEL certification with the prescribed course requirements, as applicable.</p> <p><b>2. Shifting of Research Methodology (CSRMC4001) from VIII Semester to VII Semester</b></p> <p>To facilitate students in undertaking On-Job Training (OJT)/Internship during the VIII Semester without academic interruption, it is proposed to shift the course Research Methodology (CSRMC4001) from the VIII</p>                                                                                                                                                            | <p>Resolved that the Academic Council approves: (1) post-facto approval for students of the Computer Science and Engineering Department to complete the NPTEL Certification Course in Research Methodology (CSRMC4001) during the previous semester, applicable to this batch only and not to be treated as a precedent</p> <p>(2) Shifting of Research Methodology (CSRMC4001) from the VIII Semester to the VII Semester</p> |
